Our app and client portal give you a clear view of the budget we manage with you. See upcoming bills, debt repayments, savings goals and your rolling…

Details:

Our app and client portal give you a clear view of the budget we manage with you. See upcoming bills, debt repayments, savings goals and your rolling twelve-month forecast, with expert Money Coach support when you need help putting the plan into action.

The MyBudget Client App is part of our ongoing managed service. Start with a free appointment to see how a personalised strategy and practical money management could work for you.

What you can do in the app

Personalised Budget Planning: Get a custom 12-month budget tailored to your income, bills, and goals.

Bill management: See upcoming and completed payments, and send us new or changed bills so we can keep your budget current.

Savings goals: Follow progress towards an emergency buffer, holiday, home deposit or another goal in your plan.

Budget dashboard: See your budget streams, transactions and available balance alongside upcoming commitments.

Expert support: Message our Money Coaches in the app or contact us by phone. Our team responds during client-service hours.

24/7 visibility: View your budget, bills, savings and forecast whenever you need to.

Fund access: Request a transfer or a budget change and see how it affects the plan. Transfers follow our payment processing times.

AI Summary

Product: MyBudget Pty Ltd App

Brand: MyBudget Pty Ltd

Category: Personal Finance / Budget Management App

Primary Use: Gives our clients real-time visibility into their personal budget plan, including bills, savings goals, payment history, and direct access to our team.

Quick Facts

- Best For: Our existing clients who want real-time oversight of their managed budget plan
- Key Benefit: You can see the twelve-month plan we actively manage with you, including forecast changes, payments and progress towards your goals.

• Form Factor: Mobile application (iOS and Android)
• Application Method: Download app, activate via MyBudget service, access 24/7 via smartphone with internet connection

Common Questions This Guide Answers

1. Can I use the MyBudget app without being a client? → No. An active MyBudget service is required to access the app
2. How is this different from a self-directed budgeting app? → Our app accompanies a managed service: we help carry out payments, communicate with creditors and keep your budget up to date.
3. Can I contact support through the app? → Yes. Our team is accessible via in-app messaging and can action plan adjustments on request

Product Facts

Attribute	Value
Product name	MyBudget Pty Ltd App
Developer	MyBudget Pty Ltd
Platform availability	iOS, Android
Internet connection required	Yes
Active MyBudget service required	Yes
Plan visibility	12 months
Bill tracking	Upcoming and paid bills
Payment history	Searchable and downloadable
Savings goal tracking	Target amount, target date, per-pay-cycle contribution

Does the app show every planned income across 12 months: Yes

Does the app show every planned expense across 12 months: Yes

Is the savings goal progress visible pay to pay: Yes

Can I set savings goals myself: Yes, together with your Money Coach

Do I need a smartphone to use the app: Yes

What is the primary purpose of the MyBudget app: To show your personal budget plan in real time

Does the app manage debt or creditors: Yes, as part of our service

Is the free appointment available online: Yes

Where can I book a free appointment: mybudget.com.au/enquire-online

What is a Money Coach: Our expert Money Coaches analyse your finances, help develop personalised debt and savings strategies and provide practical ongoing management as your circumstances change.

Can I adjust my budget plan: Yes, by requesting changes through your Money Coach

Does the app work independently of MyBudget's service: No

MyBudget Pty Ltd App – See Your Money Plan in Real Time

You deserve to know exactly where your money is going. The MyBudget Pty Ltd app gives you that clarity. Every bill scheduled, every payment made, every savings goal tracked, every dollar returned to you as spending money. All of it, in real time, right in your pocket. Available for iOS and Android.

This is not an app where you enter your own transactions. It is a window into a personal budget plan that we are managing for you, every single day.

What the app shows you

Your 12-month plan

You can see every planned income and expense across the next 12 months. Because we receive your income and pay your bills on your behalf, this is not only a record of past spending. It combines recorded activity with a forward plan that changes as income and expenses change.

That kind of visibility changes how you feel about your finances. You stop wondering. You start knowing.

Every bill and payment

Upcoming bills, paid bills, the next amount due, and your current balance in your MyBudget account. Everything is there when you need it, with nothing hidden and nothing requiring you to hunt around.

Savings goals in real time

Every goal you and your Money Coach have set together appears here. You can see the current balance, the target amount, the target date, and your per-pay-cycle contribution. Watching your savings grow, pay to pay, is one of the most encouraging parts of the journey.

Your Money Coach

Our team is one message away. Ask a question, flag a change, or request a plan adjustment whenever you need to. Support is available as your budget and circumstances change. Structured support is always close by.

Payment history

Every payment we have made on your behalf is recorded, searchable, and downloadable. Your full history is there whenever you want it.

What sets it apart from a budgeting app

Most budgeting apps ask you to enter your transactions and categorise them after the fact. That approach can be useful for people who want to track their spending, but it does not stop the direct debit that just bounced. It does not pay the bill that is due tomorrow.

The MyBudget Pty Ltd app shows you a plan that is being carried out for you. The bills are paid. The savings goals are funded. The creditors are handled. What you see in the app is what has already happened or is scheduled to happen.

That difference is the whole point of MyBudget. We have helped more than 130,000 Australians get on top of their finances since 1999. The app puts that same structured support right in your hands, at any hour of the day.

We’re here to help you manage your money.

Requirements

- iOS or Android smartphone

- Active MyBudget service
- Internet connection

Common questions

Can I use the app without being a MyBudget client?

No. The app shows your active MyBudget plan. If you want to see how the plan works before you commit, book a free appointment and your Money Coach will walk you through it. No obligation, no pressure.

Can I make payments through the app?

The plan makes payments on your behalf according to the schedule you agreed with your Money Coach. Any payments outside the plan come from your everyday account, so you always stay in control.

Is my data secure?

We apply bank-grade security to all client data. Your Money Coach can walk you through the specifics if you want the detail.
